The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2014 to June 30, 2015)

6.2 Does the Institution has a management Information System

The institution has a partial MIS working in the institution. The salary component, admission process, accounting, GOI-online Scholarship, students internal marks-all are done in a computerized form. The library also has accessibility to the internet for students.

6.3 Quality improvement strategies adopted by the institution for each of the following:

6.3.1 Curriculum Development

We being an affiliated college do not have any authority to change the curriculum. However, several teachers are a part of syllabus forming and restructuring it at the University level.

6.3.2 Teaching and Learning

The annual Teaching Plan is made by the teachers in the beginning of the academic year. Academic Calendar is also prepared by the college and Department. Teaching is done in innovative ways wherever possible. The faculties also undergo faculty Development Programmes and return updated, ready to render their learning to the students. The university and internal exams are also taken regularly. Several other activities between the teacher and the students create a good rapport in the institution. This makes a healthy environment.

6.3.3 Examination and Evaluation

The University sends us the examination schedule and the college plans accordingly. The internal exams are taken by the faculties. There is central evaluation programme undertaken by the university which is followed by the faculties.

6.3.4 Research and Development

The institution encourages the faculties to publish research papers and submit MRP proposals. The faculties sit after the teaching hours and work on it consequently. We see the increase in publications and research work.

Laurels for Best Services (Seva Gaurav Puraskar)

Goal :

- b. To encourage the devotion of the employees towards the institution
- c. To inspire the staff by publicly appreciating their services at the auspicious hands of Management and the Principal

The Context:

- The Management and the Principal took a decision to appreciate the services of their select employees one from teaching faculty and one from non-teaching for the last 5 years. This type idea prepped up in the minds of the institutional authorities when the college received the 'Best College Award' in the year 2012-13. The Award was the culmination of the sustained efforts of the employees of the entire college.

The Practice:

- The Principal and the Vice-Principal together make a tentative list of the selected teaching and non-teaching staffs the criteria for the relection is dedication, honesty, hard-work, result, regularity, research and feedback of the students. The list is further forwarded to the Local Management Committee for the final selection of one teaching and one non-teaching employee.
- The final names are not declared till the last moment. The employees come to know only when their names are declared for felicitation in the function. It's a moment of great pride for them to receive the Award Publicly. The award is conferred in the form of a Momento, a silver idol of Lord Ganesh and a certificate appreciating the services of the employee.

Evidence of Success:

- The practice of 'Seva Gaurav Puraskar' has been evidently successful. The felicitation of the employees create very positive vibrations among all the employees. For them who aspire to achieve it, automatically they show upgradation in the involvement of all the activities of the college.
- There is realization among the entire staff, that 'Yes ! There is work followed by appreciation. The working attitude does not remain perfunctory especially for the novices who joined the services recently.

Problems Encountered and Resources Required:

- Every year whenever the Principal and the Vice-Principal plan to chalk out a tentative list. Often it becomes difficult for both of them to prepare it as 2 to 3 employees come with equal weightage. When such problems arise, their self-appraisals are considered. In addition to this, if the tie continues, then their seniority is taken care of and the decision is taken.
- The Management too gives weightage to the words of the Principal to finalize the name.
- The financial resources required are meagre just upto Rs. 2000/-

Presentation of Practice

Title of the practice:

Celebration of National Science Day

Goals :

- National Science Day is being celebrated every year to widely spread a message about the significance of scientific applications in the daily life of the people.
- Promote active involvement of students and teachers in science related activity.
- Encourage students to ask questions and to get doubts cleared in different areas of science and promote their effective participation.
- Enable students to know about the latest developments in the fields of science and technology.
- Enhance interaction between scientists and talented students.
- Encourage scientific thinking and promote better understanding of concepts of pure science among students and teachers of high school.
- Convince students about high intellectual value of science and to develop science culture.

The Context:

- National Science Day is celebrated all over India with great enthusiasm on 28th of February every year in order to commemorate the invention of the Raman Effect in India by the Indian physicist, Sir Chandrasekhara Venkata Raman on the same day in the year 1928. For his great success in the field of science in India, Chandrasekhara Venkata Raman was awarded and honored with the Nobel Prize in the Physics in the year 1930.
- 28th of February, 1928 was the great day in India when an invention in the field of Indian science was completed by the famous Indian physicist, Sir. Chandrasekhara

Venkata Raman. He was a Tamil Brahmin and first one in the science, who had researched such invention in India. To commemorate and honor this event always in the future, 28th of February was asked to the Indian Government to designate as a National Science Day in India by the National Council for Science and Technology Communication (NCSTC) in the year 1986.

- From then, the national science day was started celebrating all across the India as a great event in the field of Indian science. It is celebrated every year by students, teachers, scientists and researchers in all the schools, colleges, universities, educational institution including scientific, academic, medical, technical and research institutions of India.

The Practice:

- Every year we organize science quiz competition for students
- Nearly 200 students participate in the science quiz
- Question paper is based various science related questions
- Result is declared on the same day and prize distribution is organized
- First, second, third and consolation prizes given to the students in the form of Book of competitive examinations.
- Answer key is supplied to every student.

Evidence of success:

Due to celebration of science day every year many students are benefited. They get exposure to write many competitive exams in science. Many of our students have written JAM exam and have qualified also. Our students participate in Research Festival like 'Avishkar' and 'Anweshan' organized by Universities at State & National level respectively. Apart from this students also take part in State and National Level Seminar and Conferences of different subjects of science.

This helps students to develop scientific temperament and attitude. As a result they write research paper and present them in National Seminar and Conferences. Students contribute in bringing awareness among people about prevailing disease by preparing banners and pamphlets.

Problems Encountered and Resources Required:

- Question paper assessment require more time
- Use of OMR answer sheet to write answers for students is necessary .
