The Annual Quality Assurance Report (AQAR) of the IQAC

All NAAC accredited institutions will submit an annual self-reviewed progress report to NAAC, through its IQAC. The report is to detail the tangible results achieved in key areas, specifically identified by the institutional IQAC at the beginning of the academic year. The AQAR will detail the results of the perspective plan worked out by the IQAC. (Note: The AQAR period would be the Academic Year. For example, July 1, 2014 to June 30, 2015)

Presentation of Practice

of the practice:

Observation of National Science Day

s:

- National Science Day is being celebrated every year to widely spread a message about the significance of scientific applications in the daily life of the people.
- Promote active involvement of students and teachers in science related activity.
- Encourage students to ask questions and to get doubts cleared in different areas of science and promote their effective participation.
- Enable students to know about the latest developments in the fields of science and technology.
- Enhance interaction between scientists and talented students.
- Encourage scientific thinking and promote better understanding of concepts of pure science among students and teachers of high school.
- Convince students about high intellectual value of science and to develop science culture.

Background Context:

- National Science Day is celebrated all over India with great enthusiasm on 28th of February every year in order to commemorate the invention of the Raman Effect in India by the Indian physicist, Sir Chandrasekhara Venkata Raman on the same day in the year 1928. For his great success in the field of science in India, Chandrasekhara Venkata Raman was awarded and honored with the Nobel Prize in the Physics in the year 1930.
- 28th of February, 1928 was the great day in India when an invention in the field of Indian science was completed by the famous Indian physicist, Sir. Chandrasekhara Venkata Raman. He was a Tamil Brahmin and first one in the science, who had

researched such invention in India. To commemorate and honor this event always in the future, 28th of February was asked to the Indian Government to designate as a National Science Day in India by the National Council for Science and Technology Communication (NCSTC) in the year 1986.

- From then, the national science day was started celebrating all across the India as a great event in the field of Indian science. It is celebrated every year by students, teachers, scientists and researchers in all the schools, colleges, universities, educational institution including scientific, academic, medical, technical and research institutions of India.

The Practice:

- Every year we organize science quiz competition for students
- Nearly 200 students participate in the science quiz
- Question paper is based various science related questions
- Result is declared on the same day and prize distribution is organized
- First, second, third and consolation prizes given to the students in the form of Book of competitive examinations.
- Answer key is supplied to every student.

Evidence of success:

Due to celebration of science day every year many students are benefited. They get exposure to write many competitive exams in science. Many of our students have written JAM exam and have qualified also. Our students participate in Research Festival like 'Avishkar' and 'Anweshan' organized by Universities at State & National level respectively. Apart from this students also take part in State and National Level Seminar and Conferences of different subjects of science.

This helps students to develop scientific temperament and attitude. As a result they write research paper and present them in National Seminar and Conferences.

Students contribute in bringing awareness among people about prevailing disease by preparing banners and pamphlets.

Problems Encountered and Resources Required:

- Question paper assessment require more time
- Use of OMR answer sheet to write answers for students is necessary .
